We are focused to achieve our aim by providing an exemplary infrastructure to work upon a child's physical, mental and artistic abilities.

We firmly believe that the parents are their child's first and most important teacher. Parents play a vital role in the education of their children. We happily welcome all our parents to take an active role in the education of their children and to be the active participants in their wards' development. "The purpose of education is to make good human beings with skill and expertise... Enlightened human beings can be created by teachers."

From the desk of Director

Greetings!!!

The aim of education is to enlighten one's mind so that one could have a broad mind as well as a broad outlook.

The real purpose of education is to create better human beings, Aspiring to become better, must be greatest motto of a student. It is equally important for the teachers to put tireless effort in right direction.

"Our precept is to educate, enlighten and empower" We wish it proved to be effective and successful by the time.

The world today is changing at such an accelerated rate and we educators need to reflect on this entire system of education. We are continuously working at implementing a well-balanced curriculum to insure that the children who walk into the portals of our school will not just love their school years but also be prepared to face life's challenges.

It is rightly said by Aristotle that **"Educating the mind without educating the heart is no education and all.**

The House System and its Objectives

CPS infuses the child with the spirit of camaraderie, cohesion and competitiveness. Each child from grade I onwards is initiated into the house system and is placed in a House and is gradually introduced to the ethos of the institution.

'It is not a disgrace if the dreams are not fulfilled, but it is, if we have no dreams to dream.'

The 4 Ds' are essential to accelerate into future.

Each house has a House Incharge and sub in-charges to whom a student may turn for assistance at any time. All students from class I and above are placed in the four houses and all activities, academic, co-curricular and inter mural are based on inter-house competitions.

The house system has been devised to promote team spirit and a sense of belonging to the school. Also, this enables the senior students of the school to provide care and direction to their junior schoolmates. The House System provides excellent opportunities for student leadership and peer group support. Aided by dedicated staff members, and house captains, it is a remarkable medium for enabling students of different ages to bond together and operate as a cohesive family. Houses are a common and successful way of building a superb school community and spirit. The Houses compete in different sports, cultural, and academic competitions, and provide an excellent way to synergize pupils of different classes and ages, all of whom have a common goal and purpose.
